What's the Agenda?

Why BusinessObjects Co-existence

Companies that use BusinessObjects also use Tableau & PowerBI

- Both are popular for Self-Service Data Discovery and data visualization
 - Not the best solution for BI reporting
- BO customers have strong investment in universes and Webi reports
 - Keep Webi for reporting
 - Leverage universes and Webi for validated data

Co-existence Needs

- Right tool for the right job
- Right tool for the right user
- Collaboration between IT and Business
- Integration and Leveraging strengths of both solutions

Co-existence Challenges

- Supporting 2 BI Solutions/Tools
- Limited or no integration
- Self-service discovery tools usually brought in/sold to the business without consideration of IT enterprise requirements
 - Poor or re-created data flows
 - Poor or no data governance

Different Ways

© Copyright 2019 InfoSol Inc.

• Export to Excel

© Copyright 2019 InfoSol Inc.

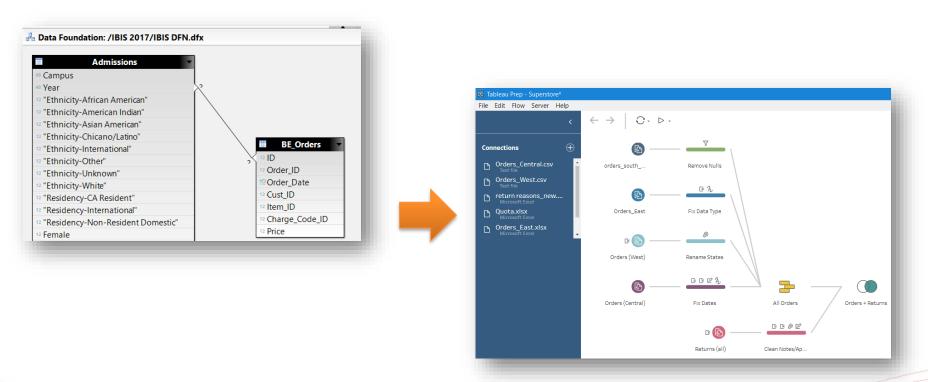

• Exporting Queries from Webl Query Panel

😰 Query Panel	
📅 Add Query 🔹 🔲 📑 🔛 🤔	Query Script viewer
🔆 Universe outline	View or edit the query script
Financial Sales 2011 -	 Use the query script generated by your query
🌯 - Type here to filter on ti 🛛 ⊕∔ 🖼 +	 Use custom query script
 Financial Sales 2011 [unx] Employee Customer Department 	SELECT Employee.State, Employee.City, Employee.Last_Name + ', '+Employee.First_Name, Manager.Last_Name+', '+Manager.First_Name,

• Connecting to Database/Data warehouse

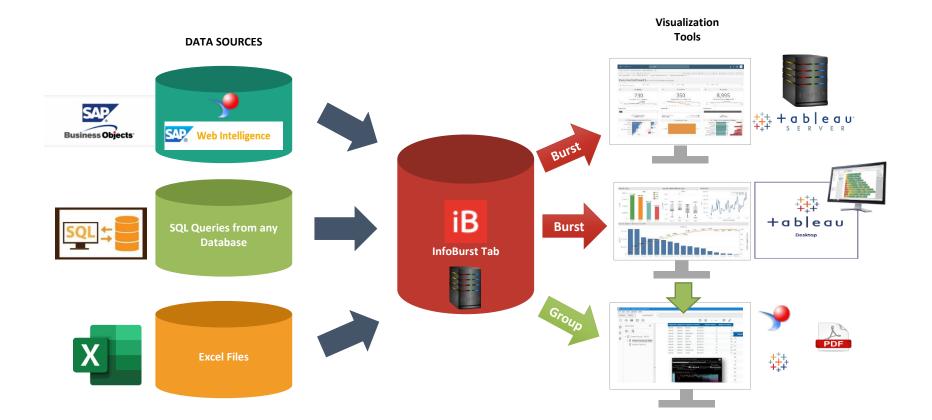

😨 Tableau - Book2		Search						
File Data Worksheet	Connect		File Home	View Modeling Help				
$* \leftarrow \rightarrow \square$		Actian Matrix	💾 👗 Cut		🗱 📲 🦳 🔄 Text box 🖉			
Data Analytic	Tableau Server	Actian Vector	Сору			🔒 🛋 🔍		
Connect to Dat		Amazon Athena Amazon Aurora	Paste 💉 Format Painter	Get Recent Enter Edit Refresh Data Sources Data Queries	New New Buttons Shapes From Page Visual The Market	om From Man Itplace File Relatio		
Dimensions	To a File Microsoft Excel	Amazon Aurora Amazon EMR Hadoop Hive	Clipboard	External data		stom visuals Relatio		
	Microsoft Excel Text file	Amazon Redshift		External data	ilisert Cu			
	JSON file Microsoft Access	Microsoft SQL Server		Get Data				
	PDF file Spatial file	Server: Database: Optional		Search	Database			
	Statistical file More	Enter information to sign in to the database:		All	SQL Server database	^		
	More	Use Windows Authentication (preferred)		File	Access database			
	To a Server Microsoft SQL Server	Use a specific username and password: Username:		Database	♀ SQL Server Analysis Services database			
Measures	MySQL Password: Azure		Oracle database					
	Oracle Amazon Redshift	Require SSL Read uncommitted data		Online Services	IBM DB2 database			
	More >			Other	🔋 IBM Informix database (Beta)			
	Saved Data Sources	Initial SQL Sign In			IBM Netezza			

 Reverse engineer Universe Logic and use Tableau Prep or other ETL tools

- Connecting via Third Party Tools
